*Kerja Bakti Tempo Hari  
Alphabad*

80x80 cm  
Acrylics on Canvas  
2024

Rp23.000.000

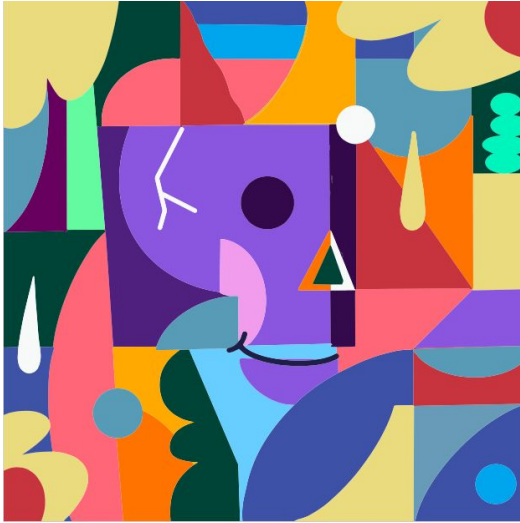

Growing up on the border between “Kampung” and “Kota” opened my understanding of how collectivism moves, one of which is “Kerja Bakti” cleaning the environment. The other day, it became an essential activity that was routinely carried out for the sake of mutual comfort.

The Guyub culture is what I want to remember through my work this time, where each form of letter or symbol presents an individual with its own uniqueness, respecting each other in one space and the same goal.

But today, is this activity still essential to do? Or is it enough to be done by environmental cleaning service providers? Or is it better for us to relax at home while hoping that the cleaning service officers work according to our tax deduction salary?

Nowadays, it is just about impossible to achieve the summit of anything on our own. To reach the pinnacle of achievement, I believe we must work together. Collaboration requires accepting divergences in order to achieve harmonious results. I believe that with harmonic results, nothing is unobtainable.

*Calm is a Superpower*  
**Hanh**

80x80 cm

Print on Canvas

Canvas edition is 1/1

2024

**Rp8.000.000**

The artwork showcasing how Superman embraces vulnerability and stillness amid destruction. It reflects the idea that embracing calmness, even when everything else is falling apart, is a true superpower. Through this acceptance of both his power and limitations, Superman embodies a deep resilience that goes beyond physical invincibility— He embraces his humanity and the inner peace that sustains him. The torn suit symbolizes the external chaos and challenges he has faced, while his serene expression during meditation emphasizes that calmness is his ultimate source of strength, something unshaken by the storm. This inner tranquility allows him to recharge, refocus, and embrace his purpose without being overwhelmed by the external pressures of his responsibilities.

In this way, the artwork suggests that true strength comes not from resisting chaos but from finding calm within it.

Merespon dari kata Embrace dalam bahasa Indonesia bisa bermakna merangkul, berkumpul atau mengumpulkan. Bermain, permainan, dan mainan menjadi dasar pemikiran untuk menjadi simbol untuk kata Embrace.

Saya melihat dan merasakan bahwa terkadang bermain atau mainan dapat menyatukan atau merangkul dari berbagai kalangan atau generasi, dari anak-anak sampai orang tua. Bahkan sering kali kita lihat, ketika orang tua diberikan mainan mereka terlihat sangat bahagia, mengingat masa kecilnya yang indah. Terlebih lagi anak kecil mereka bisa bermain bersama dengan riang gembira dengan sesamanya walau dengan permainan dan mainan yang sederhana.

Karya ini juga bisa menjadi simbol kehidupan adalah permainan, maka bersatu lah merangkul satu sama lain, sehingga permainan dalam kehidupan kita jalani bersama dengan riang gembira.

Waktu yang mempertemukan kita yang tak saling kenal awalnya  
Semesta yang membawa kita pada titik perjumpaan  
Bahagia sekali saat kita diperjumpakan kembali  
Atau dipertemukan untuk pertama kali  
Merajut keakraban dan hubungan semakin kuat rasa keakraban  
terus dipelihara  
Karena mungkin saja suatu saat titik perjumpaan menjadi titik  
perpisahan yang menyakitkan  
Nikmati waktu perjumpaan  
Ukir sebanyak mungkin kenangan indah  
Karena mungkin saja perjumpaan bisa hilang dalam sekejap

**Rp12.000.000**

Embracing Ur Self means being willing to stand out from others and being true to yourself. It means risking others' disapproval or rejection of you because you choose to act according to your own judgment and values rather than those that may have been prescribed without your consent, perhaps even before you were born.

When you embrace yourself, when you are at home within yourself, you will be as authentic with others as you are with yourself. You won't feel a need to apologize for not being the person someone else might wish you were. You won't pretend to be anyone, or anything, but will instead enjoy being who and what you are. You will know that is all you need—and it's enough for one life, yours.

***Anak-Anak Anjing  
Bermain Naga  
Rato Tanggela***

80x80 cm

Pop Up Acrylic on Canvas  
2024

**Rp18.000.000**

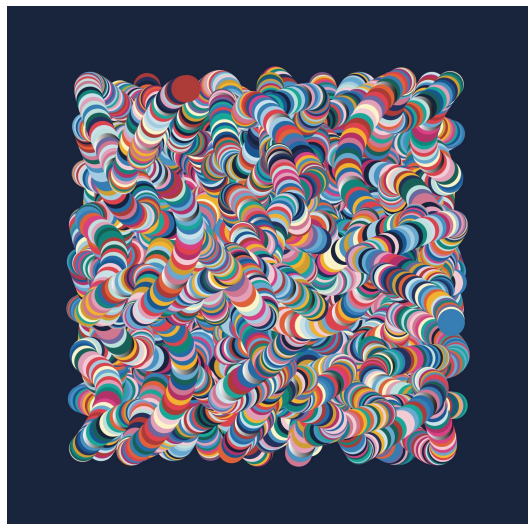

Anak-anak anjing bermain naga adalah karya yang muncul dari khayalan saya tentang cara hidup kita yang sering berpusat pada mimpi, menciptakan sesuatu, dan menghidupkannya. Khayalan ini perlahan menjadi nyata, begitu juga kebiasaan kita dalam kehidupan sehari-hari—tanpa disadari, kita sering kali tenggelam dalam apa yang kita sukai. Ketika melakukan hal-hal yang menyenangkan, kita seolah-olah hanyut di dalamnya, membuat hal-hal yang tak nyata terasa hidup. Terlebih lagi, bersama teman-teman yang bisa diajak bermain, waktu menjadi fana, sementara kita diangkat oleh keabadian imajinasi dan cita-cita.

Karya ini saya buat untuk merespons tema besar ulang tahun ke-4 Ashta, yakni Embrace. Dengan karya ini, saya ingin menunjukkan bagaimana saya memeluk ide-ide dan membaginya bersama teman-teman yang bisa dipercaya, sehingga ide dan cita-cita tersebut dapat tumbuh dan hidup bersama.

In this painting, I depict the moment I was baptism, which marks the joyful and open step I took to embrace my commitment as a faithful lamb to the Shepherd. This work symbolizes my spiritual journey, where each brushstroke reflects my quest for light and illumination. Even though I often become a lost and wandering sheep, God always shows His love. In every color and form, I express how God always accompanies and enlightens me on this journey. My hope is that this work serves as a self-reminder for myself and for those who appreciate it about the love and goodness God has given me since I was born until now.

Nyeledet' is the distinctive look in the Balinese dancer's eyes, characterized by bulging eyes and movements from left to right. This technique contributes to the overall theatricality and story telling of Balinese dance, making it a significant aspect of the art form.

Originated from village of Ubud in Bali, Indonesia, 'Legong' is a classical form of dance that is characterized by intricate finger movements, footwork, and facial expressions. 'Legong' is typically performed by young girls dressed in elaborate costumes and accompanied by a gamelan orchestra. It is considered as one of the most refined and elegant forms of traditional Balinese dance and is often performed at temple ceremonies, cultural events, and tourist attractions in Bali.
